DETAILED ACTION

Upon consideration of the Board or Appeals Decision, prosecution is reopened in accordance with MPEP § 1214.07.

Response to Arguments

1. Applicant's arguments, see remarks page 6, filed 5/2/2006, with respect to claims 1-25 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 8-13 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 8 recites "[a]n article comprising a medium storing instructions that enable a processor-based system to:..." The claimed "article comprising a medium" may be interpreted as a signal or a piece of paper, since neither a signal nor piece of paper are statutory, the claim includes nonstatutory subject matter.

Allowable Subject Matter

3. Claims 1-7 and 14-25 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art, alone, or in combination fail to teach or to fairly suggest a session identifier having a value announcing the availability of an electronic programming guide as discussed in the Board of Patent Appeals and Interferences Decision, mailed 10/25/2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
